# Your calls, in one place.

Session Hub is where you book your call with Winning Minds, and your private line to Michal and Milan in between. It takes about a minute to learn.

> **Everything is shown in Madison time.** Prague is six or seven hours ahead depending on the month, and the app has already done that sum. Book the time you see.

## GETTING IN

Go to **winningmindsperformance.com** and sign in with the email and password Mára sent you.

Change that password straight away under **Account → Change your password**. Pick something you do not use anywhere else.

## BOOKING A CALL

1. Open **My calls**.
2. Tap a green time, like **8:00 AM** ○○
3. Check the details and tap **Confirm booking**.

That is it — you are booked. First come, first served.

## WHAT THE DOTS MEAN

Michal and Milan both run calls, so one time can hold two places.

○○ both free ●○ one left ●● gone

A time with no dots has a single place.

## CHANGING YOUR MIND

Your booked call is the red one, marked **Yours**. Tap it to give it back, and somebody else can take it.

You hold **one call per week**. Booking another in the same week moves you — the app will say so before it does.

## JOINING ON THE DAY

The Google Meet link appears on the **Your next call** card at the top of **My calls**. The Join button opens ten minutes before the start.

If it still says the link is coming, it is on its way — message us if the call is close.

## MESSAGES

Your thread under **Messages** goes to Michal and Milan and nobody else. Not your teammates, not your coaches.

You can send a file with it too.

## TASKS AND RESOURCES

**Tasks** are what we agree between calls. Tick one off when it is done.

**Resources** holds anything we have shared with you to read or watch.

## WHO SEES WHAT

- **Teammates** see only each other's names on the calendar — nothing else.
- **Coaches** see who booked and who turned up. They never see what is said in a call, in a message, or in a note.
- **Winning Minds** sees your bookings, your messages and your tasks.
